DETAILED ACTION

Response to Amendment

1. Applicant's arguments, see remarks, filed 06/15/2007, with respect to claims 1 - 19 have been fully considered and are persuasive.

Allowable Subject Matter

2. Claims 1 – 19 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of the record fails to anticipate or fairly suggest, a system for the processing of data to and from a mobile terminal comprising: a mobile terminal comprising a data bus for receiving and transmitting data to a wireless communication network; an output device remotely located from the mobile terminal for presenting at least one of audio, video, and textual information to a user; and an interface module remotely located from the mobile terminal and arranged for user-initiated coupling to the mobile terminal to interface the data bus of the mobile terminal and the remotely located output device, the interface module comprising: a protocol stack for processing data to and from the data bus of the mobile terminal in accordance with at least one communication protocol; a user agent for decoding data to and from the protocol stack; and a signal generator for converting the decoded data from the user agent into signals formatted for processing by the output device so that the output device presents at least one of audio, video, and textual information to the user based on the signals; wherein the interface module determines whether the mobile terminal is configured to display the received data; and
